

The change in name from "Ballona" township to "Venice" township is one of the changes that has long been desired. Information received from Supervisor W. E. Hinshaw and County Counsel Hill is to the effect that the much-desired change will be made. "Ballona" is an old Spanish name that has become confusing to many of the new-comers. Besides, Venice is the principal city in the township, the court located here, and, in the very nature of things, the township should be named "Venice." The change will probably become effective on or about January 1, 1916.
